E Q U I P M E N T

NEW DSSV LINE FOR NATIONAL / VARCO TOP DRIVES

Hi-Kalibre Equipment Ltd. now offers a DSSV solution for National / Varco top drives, including the popular TDS-10 & 11. Now users of these top drives can benefit from the quality and customer service that Hi-Kalibre Equipment is known for worldwide!

5193-RRH-SERIES
5194-RRH-SERIES

The 5193 & 5194 are designed as a direct replacement for your existing DSSV with 100% drop-in compatibility with your existing top drive, saver valve actuator and associated equipment.

Our valves offer several unique benefits including:

- Bronze inserts and low friction coated stems to reduce operating torque and increase service life
- Field serviceable with our patented upper seat & split ring system

The 5193 & 5194 valves are produced with the same proven materials, manufacturing processes, and quality control that our customers have come to expect.

Contact Hi-Kalibre Equipment Ltd or your nearest authorized sales agent for details, and a personalized quote.

Series	ID	OD	Upper Connection	Lower Connection	Length (SH-SH)	Weight	Working Pressure	Service
